

Brussels, 4 June 2014

The WP5 Training of Multiplicators programme of the Joint Action on Patient Safety and Quality of Care (PASQ), invites you to join a WP5 webinar on the **WHO Surgical Safety Checklist: Practical examples and critical points for implementation**. The webinar session aims to provide a comprehensive and dynamic discussion about the implementation of the surgical safety checklist in order to increase safe clinical practice and ensure overall patient safety during surgery.

Participants will gain an overview of interventions to increase surgical safety and taking part in the webinar provides an opportunity to exchange experiences from different national and local settings across the European Union.

The session will be held on Friday, **27 June 2014** from **13.30 until 16.00 hrs CET**.

To register, please complete the following table with your personal details and send it to anamaria.corca@cpme.eu.
