

European Patient Safety Exchange Mechanism (WP4)

UK Invitation to join the NHS England Patient Safety Team Webinar

As part of the European Patient Safety Exchange programme the NHS England Patient Safety Team will be hosting a webinar to share the England experience of improving paediatric patient safety using a systematic approach (PEWS).

The webinar session will build on the previous webinar which was held on 19th September 2013. In this session we will explore the principles that underpin a PEWS approach, and we will discuss audit and monitoring of the process. We wish to provide an opportunity for sharing of experiences from across Europe.

The session will be held on **20th March 2014 from 16.00 – 17.30 (GMT)**. To register your interest in joining this session please see the PaSQ website.
